Supply Chain Management Syllabus

Course description

This graduate level course is to prepare students to be successful supply chain managers. Students will gain understanding of global, relationship, and sustainability issues associated with supply chain management. They will have experience in applying various quantitative and technology-based analytical techniquesfor supply chain problem solving.

Course objectives

- 1. Develop an integrated supply chain perspective of operations management
- 2. Explore global issues of supply chain management
- 3. Explore relationship issues in collaborating with suppliers and customers to accomplish supply chain activities
- 4. Explore sustainability issues of supply chain practices
- 5. Develop the ability to use analytical tools to support supply chain decision making

Learning outcomes

Upon completion of this course, students will be able to:

- 1. Define the scope of strategic importance from a supply chain perspective.
- 2. Explain the basic principles of how organizations operate as an integrated supply chain.
- 3. Identify ways to improve effectiveness and efficiency of material usage and process execution.
- 4. Describe the flows of materials, information, and organizational relationships.
- 5. Identify ways to improve operational relationships in the supply chain.
- 6. Develop resource plans to deliver the right service at the right place at the right time.
- 7. Assess environmental and social impacts of operations activities to support a sustainable supply chain.
- 8. Continually plan, implement, and control changes to supply chain.

Supply Chain Management Syllabus

Exams

There will be tow non-comprehensive exams. The format of the exams can include True/False, Multiple Choice, Fill-in-the-blank, Short Answers, and Essay questions.

Quizzes

There will be 7 quizzes and the two lowest scores will be dropped. There will be no "make-up" quizzes for any reason.

Homework

There will be homework assignments involving problem solving exercises. They are to be completed after class and handed in at the beginning of class. A late penalty of 5% per day will be applied to any homework submitted after the due date. Except stated otherwise, all homework assignments are individual work, i.e., no copying from others or group work.
